According to University Policy, students with disabilities seeking accommodations should inform you of their eligibility for accommodations, ideally during the first two weeks of the term. Our office retains the confidentiality of disability documentation in keeping with Policy LR7. Instructors should not ask students about their diagnosis or for disability documentation.

We are a resource to you in the implementation of students' accommodations. We are pleased to collaborate with you and students to enhance the accessibility of their post-secondary experience. We recognize that academic accommodations do not remove the need for evaluation and the need to meet essential learning outcomes for the course or program. If there are academic concerns about the accommodations, please contact me. If a student requests an academic accommodation not identified on herein, please refer the student to me or contact me directly.
